

LACK OF GRAIN AT CHURCHILL MAY END SEASON

Ottawa, Ont.—Churchill, three-year-old port of northern Manitoba, may find its shipping season ended long before the freeze-up, according to reliable information here. Seven ships loaded with grain have already sailed, now en route to the "Gardena," now en route to that port, are yet to load. This will clear out the 2,000,000 bushels stored in the elevator and it is stated only 6,000 bushels are en route to the port from inland points.

The understanding here is that no more ships have been chartered to proceed to Churchill and none will be until there is more grain in sight. Some attribute the shortage there to the general slowing up in export shipping, but others add the suggestion that the port has cut down on the Great Lakes has narrowed any advantage in shipping via Churchill, despite the lower rates there, because between that port and the "United Kingdom" as compared with last year.

With a shipper's market prevailing lake tonnage is being chartered at the lowest rates for some time, according to advice from Port William reeve. Lake freight rates to Montreal, which were as high as six cents a bushel last year, have dropped to from 2 1/2 to 3 cents. The head of the Lakes to Georgian Bay ports range from 1 1/2 to 1 3/4 cents as compared with 2 cents last year.

The rate to Buffalo is also lower, having dropped from 1 1/2 cents last year to 1 1/4 now.

Advices from shipping interests in Montreal are that the rates still remain lower from Churchill than from the head of the Lakes. The Great Lakes and European ports so the new crop wheat that can reach Churchill more economically than Port Arthur and Port William may revive the flow to the new port. However, no such revival is yet in sight.

Strenuous efforts were made to lengthen the season of Churchill until it operated. This year the insurance companies responded somewhat to the pressure by extending the date when ships could leave the port without paying additional insurance. On hulls and machinery, from September 20, the final date last year, to October 7, the port therefore has well over a month in which it can ship if the grain is available.

Wheat Crop Estimate

258,000,000 For Western Canada Is Forecast

Winnipeg, Man.—A wheat crop of 258,000,000 bushels for western Canada this year is estimated in the fourth crop report of the Weekly Market News compiled and edited by W. Sanford Evans, noted crop statistician, and issued here.

Estimates are based on reports from 337 crop correspondents in the prairie provinces combined with estimates of yields from 1,500 other points. Manitoba's wheat crop is set at 33,000,000 bushels, Saskatchewan at 120,000,000 bushels, and Alberta at 105,000,000 bushels; the figures being subject to revision.

Manitoba and Alberta crops maintained their prospects during August, but in Saskatchewan there was further deterioration, the report adds.

The wheat crop is reported to be 15 per cent. cut and 24 per cent. shrunken, with about 88 per cent. of the wheat crop now beyond further deterioration by frost, but grasshoppers are still present.

Yield of oats for the prairie is set at 20 bushels to the acre and barley at 16 bushels to the acre.

Train Goes Through Bridge

Five Drown And Many Missing In U.S. Mishap

Tucuman, N.M.—At least five persons were killed, 25 injured and many passengers were missing when the "Golden State Limited," crack Rock Island train, ploughed through a bridge into a water-filled draw five miles west of Tucuman.

Seven coaches went into the water, along with the locomotive. The draw, ordinarily dry, was a raging torrent fed by heavy rains.

The "Golden State Limited" was eastbound from the Pacific coast.

Four Cases In Week

Calgary, Alta.—Four cases of influenza paralysis were reported to Calgary medical health department.

Deplores The Dole

Speaker At Calgary Contended That Relief Is Becoming A Racket

Calgary, Alta.—Unemployment relief in Canada is becoming little more than a racket, with both politicians and unemployed engaged in it, declaring a speaker at a service club. "The Canadian system is a dole, pure and simple," he said, "encouraging pauperism."

The nation owes no man a living, he contended, but it does owe him the opportunity to make a living. The plea for "easy money" is based on false understanding, and any money has ruined the western farmer, Mr. Craig declared.

The speaker asserted the Canadian Goodwill Industries of Winnipeg had started with nothing but donations of used clothing, furniture and other articles and the voluntary work of a few men and women, had grown to an institution paying \$15,000 in wages annually and providing employment for 100 to 150 persons.

Unemployment relief money is collected, repaired, and sold for wages. Though he did not hold it to be a permanent unemployment relief measure, yet he believed such schemes whereby a man was given a job in his hand rather than a coin in his pocket, were immeasurably of greater value.

The state was being called on to do what the individual should be doing or the community be asked. The modern church had almost reached the limit of its helpfulness, for the unemployed relief money activities were left to the pastors.

Experiment Of United

States Being Watched

Countries Interested In Stabilization Of Current Through N.R.A. Operation

Buff, A.L.—If the United States can stabilize its dollar through the operation of the N.R.A., stabilization of currencies by three or perhaps four other great nations will follow, according to the speaker at the conference of the Institute of Pacific Relations, just ended.

Meanwhile, other countries are closely watching the progress of the N.R.A. application, and the importance of the experiment, having referred to the social and economic welfare of the people of the world, cannot be overestimated, it was agreed.

Currency stabilization is linked with trade stabilization and with solutions of the problems of population pressure, so insistent in Japan and China; trade conflicts, as for instance, the bitter rivalry between Lancashire and Japanese textile spinners; and of disturbed relations between countries. The dispute of China and Japan over Manchuria was given as an example.

Ontario's Relief Bill

Estimated Total Of \$30,000,000 To End Of Fiscal Year

Toronto, Ont.—At the end of Ontario's fiscal year, it is estimated a total of \$30,000,000 will have been expended on relief in the province, in the year, as the president reopened the export trade to American miners. The presidential decree is effective immediately.

From the first of 1930 to the end of July this year, the total bill was \$7,800,000, of which the province has contributed \$7,800,000, the Dominion \$23,000,000 and the municipalities \$26,000,000.

Brandon Aviator Injured

Accident Occurred When Propeller Of Monoplane Broke

Brandon, Man.—Crashing to the ground when the propeller of his monoplane broke, Alvin Kennedy, instructor for the Brandon Aero Club, escaped serious injury, but was detained at the Brandon General Hospital, where minor injuries were attended to.

The machine had been built locally and was owned by Gordon Brown. It had been taken up as high as 1,400 feet a few days ago, and as the pilot put it, "behaved well."

Conquers English Channel

Dover, England.—The English Channel was conquered for the first time when Miss Susan Terry, 22-year-old Manchester girl, arrived at South Foreland after swimming from Cape Gris Nez, France, to Dover.

Two attempts before succeeding in becoming the 18th swimmer and the eighth woman to swim the treacherous strip of water.

Conciliation Board

Will Hear Wage Disputes Of Railway Employees

Ottawa, Ont.—Hon. W. A. Gordon, Minister of Labour, has appointed two boards of conciliation to hear wage disputes between the Canadian National and Canadian Pacific Railways and their employees.

The first board will inquire into a dispute between the Canadian Pacific Railway and its clerks, freight handlers and station employees, numbering about 3,000. George S. Currie, Montreal, and W. F. O'Connor, Toronto, will be two members of the board, representing the company and the men. They will select a third member who will be chairman.

The second board will investigate two wage disputes between the Canadian National Railways and its men. The first dispute involves 4,300 men, clerks, freight handlers, laborers and employees of the ferry service between Toronto, N.B., and Borden, P.E.I., and what employees at Halifax. The second dispute involves 84 employees of the railway at headquarters at Montreal. Two members of the board will be P. C. Campbell, Montreal, representing the company, and Rev. Russell McGillivray, Ottawa, representing the men. They will choose a chairman.

U. S. EMBARGO ON GOLD EXPORTS IS WITHDRAWN

Hyde Park, N.Y.—Acting with dramatic suddenness, President Roosevelt withdrew the United States gold embargo to permit sales of the newly mined metal in foreign markets, where prices are higher.

At the same time the president tightened the prevailing restrictions against hoarding by requiring all persons holding gold coin, gold bullion or gold certificates in excess of \$100 to file statements of their holdings within 10 days.

After 30 days all private gold holdings of more than \$100 will be prohibited unless valid reasons are shown why the metal cannot be replaced by currency.

The decree would appear to nullify the recently authorized plan permitting American producers to export concentrates and amalgams to Canada and other countries for refining and export. Leading United States producing mines had applied to Canadian authorities for refining of their gold ore, but the order relieves United States producers of the necessity and expense of exporting for refining and roundabout marketing.

Treasury officials interpreted this order as meaning that newly-mined gold could be sold in the world market at prevailing prices of around \$30 an ounce as contrasted with the fixed price of \$20.67 paid by the mint.

Gold mining shares immediately shot upward on the New York stock exchange, one issue advancing more than \$10 to a record high.

Treasury department officials forecast a quickening of activity in the gold mines of the west with production increasing by more than \$15,000,000 a year, as the president reopened the export trade to American miners. The presidential decree is effective immediately.

Bellefleur Drive Was Accused

Lethbridge, Alta.—Automobile accident which caused the deaths near Macleod, Alta., of Constable Joseph Farrell and Sgt. J. Blockidge, both of Lethbridge police force, resulted when Farrell fell asleep at the wheel in the opinion of the coroner's jury empaneled here.

AS ROME WELCOMED BALBO

Here is the triumphant procession with which the Eternal City welcomed General Italo Balbo and his men on their return from the epic mass flight to Chicago and back. The parade is shown coming through the historic Constantinian Arch on the way to Palatine Hill, where the fiera were received and decorated by Premier Mussolini. At top: Italo Balbo is shown receiving Balbo.

NOVA SCOTIA'S NEW PREMIER

Angus L. MacDonald, 42-year-old member of Inverness County, leader of the Liberal Party in Nova Scotia, which secured 21 out of the 30 seats, defeating the government of Hon. G. S. Harrington. The premier-elect has not hitherto had a seat in the House.

Angus L. MacDonald, 42-year-old member of Inverness County, leader of the Liberal Party in Nova Scotia, which secured 21 out of the 30 seats, defeating the government of Hon. G. S. Harrington. The premier-elect has not hitherto had a seat in the House.

Search For Old Forts

Expedition To North To Unfold Glamorous History Of Early Days

Prince Albert.—A unique expedition left recently when Prof. A. H. J. J. of the University of Toronto, and J. B. Tyrrell, Toronto, president of the Kirkland Lake Mining Company, set off in an outboard motor freighting canoe with two guides to search for locations of old forts on the North Saskatchewan and Saskatchewan rivers east of here.

One of the objects of the expedition will be to relocate the remains of Fort La Corne, originally established in 1746 by La Verendrye and first named Fort St. Louis. Some doubt has arisen as to the exact location of this fort and those on the novel expedition will attempt to remove these doubts. This is one of the oldest forts known in the history of the west and about it and the other forts in this part of the province is written the glamorous history of the early fur trade days when the flowing streams in this part of the province were the main arteries of travel. The men will spend a week in their quest.

Argentine's move to the 22nd net on sign the pact, the general purpose of which is to reduce production by the great wheat nations and stimulate consumption in the importing countries. The other principal nations signed on August 20th.

The pact is a move for the governments to appoint their members of the permanent advisory wheat committee, which presumably will have headquarters in London and will guide the working out of the agreement.

Washington.—Secretary Henry Wallace stated that the international wheat agreement finally approved at London will limit exports of Canada to 200,000,000 bushels; the United States to 47,000,000 bushels; Argentina to 110,000,000 bushels, and Australia to 105,000,000, up to July 31, 1934.

B.C. Voting November 2

Proclamation Announces Date Of Provincial Election

Victoria, B.C.—Voters of British Columbia will go to the polls on Monday, November 2, to elect the province's 15th legislature. Official proclamation announcing the date of the provincial general election was signed by Lieut.-Governor J. W. Fordham Johnson. Nominations will be made October 27.

The 17th legislature was dissolved August 1, after running its full course of five years. With dissolution the 1929 election was held to effect, reducing representation in the legislature by one seat to 47, and the boundaries of the constituencies and adding a new seat in Peace River.

In the last election, July 14, 1928, the Conservatives, headed by Hon. S. F. Timine, were returned, electing 36 members to 11 Liberals and one Independent Liberal.

Early this year Premier Timine failed in his efforts to form a coalition ministry with the Liberals, headed by Hon. J. Pattullo and W. J. Bowser, leader of a non-party group.

At least eight different parties have entered this year's election and have already nominated a total of 114 candidates. This number will be increased considerably by the time polling day comes around.

Raps National Recovery Act

N.A.A.S. Makes New Move—At As "Pure Bull"

St. Louis, Mo.—The National Farmers' Union, which has been making individual farmers' taking all the government's crop reduction plans, but added:

"It is against the laws of God and nature to plow up cotton, destroy things that could be used for food, and limit production."

The N.F.U., Simpson asserted, is "bankrupt, and the farmers' minds off the real thing and is invented by Morgan and Mellon and others."

Passengers Got Thrill

Sky-Riders Stalled Between Towers

Chicago.—Several passengers on the sky ride at the world's fair had a thrill when three cars were forced to halt in mid-trip by a broken telephone wire that fell across the cable support cables. Hanging 210 feet from the ground, the passengers were ride takes passengers between 620-foot towers, the passengers remained calm and surveyed the fair grounds for more than an hour while workmen in sky chairs that ran on the cables fixed the wire.

Serious Feed Shortage

Toronto, Ont.—Feed shortage in Ontario from the point of the dry fish industry.

"As far as I can judge there is no shortage of feed for the cattle or for any drastic changes in the Bank Act," Mr. Whitman said. He had never been refused adequate credit for his requirements by the banks.

Under present conditions, for instance, there was some room for action because the control of the rate issues was in the hands of a political body. Dominion notes were issued by the government after the refusal of certain securities by the banks.

Miners, fishermen, agriculturists and others in eastern Canada were also having a hard time, Mr. Wiswell reminded the commission in referring to western representations on behalf of the wheat farmer.

This view was heartily concurred in by A. H. Whitman, who took up the question from the point of the dry fish industry.

OUR LETTER BOX

A letter in our news columns last
issue caused considerable comment by
various interested parties and it ap-
pears that there are two sides to the
question.

In all public undertakings there is
bound to be some dissatisfaction and
these views are aired it usually
results in a better understanding of
things.

Our letter box column is always open
to readers and the editor would be glad
to publish letters on public matters,
both pro and con, so long as criticisms
are fair and clean. On all occasions,
however, these letters must be signed
by the writer, even though his name is
withhold from publication.

Readers should remember, though,
that fair criticism is a thing to be
proud of and if their letters are at all
worthy of publication, they also should
be worthy of their signature in print,
and not hide behind a nom de plume
or the editor's conscience.

BE CAREFUL OF YOUR GUN

Once again the shooting season is
upon us and with it comes the annual
reck of city and town sportsmen, as
to the country's lakes and sloughs.

Every year reports reach our ears
of some accident due to carelessness
of a hunter, and often these accidents
result in death, either to the gun car-
rier or his companion.

If you are among the shooting sim-
ply, be sure at all times to take every
precaution against accidental shoot-
ing. When going through fences or
walking with your partner, be sure
your gun is pointed so as to cause no
harm to anyone in case of accidental
discharge.

At the same time be a sportsman,
put on the farmer's attire and if in
doubt, ask permission to shoot on his
land. He will usually meet you half
way, they say.

THE FOLLOWING IS APPRO-
PRIATE AT THIS TIME

DON'T ATTEMPT TO BE PRINTERS

Don't attempt to be printers. It does
not pay you in the end. Instead, have
your local printer and other printing
done at The Chronicle Office. We will
quote you a reasonable price on all
work. Not only this—if you are put-
ting on an entertainment, etc. and
have your printing done here, you get
access to our free reader space in this
newspaper, which is worth more to
you than the paltry sum you spend
for other forms of advertising.

Don't pass up your local printing
establishment when you have printing
to do. Your patronage only will keep
a newspaper in Carbon.

SUBSCRIBE TO YOUR HOME TOWN
PAPER — IT HAS MANY MORE
ADVANTAGES BESIDES ITS
NEWS SERVICE

NEIGHBORS

When you came into the world it
was the neighbors who cheered your
parents by praising your first smile.

Now that you are a man, with a
citizen's responsibilities, it is your
neighbors who help carry these re-
sponsibilities and who stand by to
help you in your defeats and to cheer
you in your victories.

When you die, your neighbors will
shed a few tears and sing a few songs,
and say a prayer for you.

When you have a favor to bestow,
even though it be only the favor of
your patronage, wouldn't it be good
sportsmanship to bestow that favor
upon your neighbors?

In a thousand ways you are a part-
ner in business with every man in
your hometown. Your interests are
common. If all your neighbors should
fail, you wouldn't remain in business
a week. If all your neighbors succeed,
you almost certainly succeed with them.

So, when you find yourself in need
of a monkey wrench, a pair of pants
shoes, automobile, groceries, etc., or
an insurance policy—to buy it from
your neighbor is the next best thing
to buying it from yourself.

Two small boys, staring in a bar-
ber shop window, earnestly looked
on as the barber went over his custom-
er's hair with a singing tooth.

"Blimey, Bill," one of them, ejacu-
lated, "he's lookin' for 'em wiv a
light!"

NEWSPAPER RIGHTS

There are some people who have
peculiar ideas about a newspaper.
They regard it, not as a business but
as a convenience. If the paper reaches
them late, or fails to give every item
of news or its conduct towards them
is in a manner they do not like, they
then very promptly make a business
of it. Because they have bargained for
something they are not getting. They
make these issues every day. In the
year, except the first day, when the
business idea is forgotten, and the
only thing uppermost is a plea to get
out of paying what they honestly owe
the paper.

These same men will meet the news-
paper man with a smile, offer him a
drink or a cigar, and then ask him to
say in the paper that he is the most
enterprising and progressive citizen in
the province. That's their idea of busi-
ness.

Now the newspaper is a business. It

... and now the Goodyear
SPEEDWAY
HEAVY DUTY TIRE
at sensationally low prices!

Also, reduced prices announced on
regular 4-ply Goodyear Speedways

Yes, you naturally are surprised at these
low prices for genuine 6-ply HEAVY DUTY
Tires. No wonder! Such low markings for
Heavy Duty Tires by Goodyear are nothing
short of a sensation. See the still lower prices
on regular 4-ply Speedways. Don't wait—
buy now while range of sizes is complete.
Every Goodyear straight-side tire is fully
guaranteed.

New Goodyear Speedway Prices

Size	4-ply Regular	6-ply Heavy Duty
30x3 1/2	\$4.40	
4.40x21	6.15	\$7.80
4.50x20	6.65	8.30
4.50x21	6.90	8.50
4.75x19	7.60	9.10
4.75x20	7.95	9.80

years correctly mounted without
extra charge.

GARRETT MOTORS
CARBON, ALBERTA

is not a glory making machine. It can
do no more live on sentiment than any
other business. It may surprise you,
but printers don't work for nothing
and no amount of persuasion will
make them do it. It is true one may
owe us \$2 for a year's back subscrip-
tion, yet if three or four hundred sub-
scribers reason like this, that we col-
lect news for the fun of it, and get
it in print, the paper mill gives us our
paper just because they want to see
us do well, the machinery men give
us machinery for the same reason,
then it becomes a different matter.
Instead of a couple of dollars worth
of glory it is many dollars in cash each
week for supplies.

The newspaper business is made up
of small things, and it is such little
things, if collected, embalm the man-
agement to improve its services and
pay off all obligations promptly, but
which if deprived of for rival reasons,
makes the cash account short and the
newspaper man has to hustle along
under a weight of about sixty pounds
in the square inch.

Perhaps you have never given any
thought to our subject on this line. If
not then, if this article serves to call
your serious attention to it, its mis-
sion has been accomplished.

Statesman From Antipodes Issues Grave Warning Respecting Building of Warships On Pacific

Hon. William Downie Stewart, M.P., former minister of finance in the New Zealand Government, the statesman who negotiated the trade treaty between New Zealand and Australia, Canada, Japan and Belgium, startled members of the Institute of Pacific Relations by declaring the institute might well have taken up as a subject for discussion the present feverish building of battleships by great nations on both sides of the Pacific. His view was that if causes of friction were to be studied, building of war fleets could not properly be ignored. This should be done before serious events occur, he said.

"I am not a pessimist," he exclaimed towards the conclusion of his vigorous speech delivered from his wheel chair, for he is now almost crippled. "I may be a fatalist insofar as I realize that certain factors are at work that will produce a certain result unless a solution is found."

"When I am on both sides of the Pacific great nations feverishly building battleships, armaments manufacturing, I am bound to ask myself what for. If you build a hull it means war." "There is no peace in the air," he said. "The position," he continued, "and so the position seems to us grave and serious, disturbing and menacing. I will say if you talk war you will get war. And also it is futile to cry peace."

Canadians Eating More Pork

Figures For Last Year Show 91.79 Pounds Per Head

Reminiscence of the brave old days when a barrel of pork constituted an ever-ready standby in the pioneer's larder, Canadians in 1932 consumed the latest statistics, ate more pork and less beef and eggs than in the preceding three years. In 1932, also, more turkey, ducks and geese than eaten than in 1931, but less than in 1930 and 1931. Again, in 1932 the consumption of chicken was less than in the preceding year.

Reckoned in percentages, every Canadian man, woman and child in 1932 individually consumed 91.79 pounds of pork; 56.02 pounds of beef; 6.97 pounds of mutton; 7.67 pounds of chicken; 1.75 pounds of turkey; 4.1 of a pound of duck; 3.3 of a pound of goose; and 29.30 dozen eggs. The estimated total consumption for the last year in 1932: Pork, 961,885,673 pounds; beef, 588,607,853 pounds; mutton, 73,182,566 pounds; chicken, 82,658,449 pounds; turkey, 18,424,340 pounds; duck, 4,283,215 pounds; geese, 6,670,600 pounds; and eggs, 297,949,239 dozen. Dominion Department of Agriculture.

Menace To Poultry Stock

Lice Are Greatest Danger To Life Of Baby Chicks

Poultry experts and practical poultrymen recognize the danger to the life of the baby chick if it comes in contact with lice or mites. Prof. J. Holmes Martin, of the University of Kentucky, points out that much of the loss among chicks raised on the farm can be attributed to lice and mites. He says: "The most important single factor in preventing loss from these pests is to free the brooder hen and brooding equipment from lice and mites before the chicks hatch."

To rid the flock of lice, Professor Martin suggests the simple treatment of applying Black Leaf 40 to the roosts about one-half hour before roosting time. It should be painted on top of the roosts with a small brush or applied in a thin stream with an oil can. When the birds go to roost, fumes are given off from the lice while the birds are roosting. It is necessary of course, in order to get a complete kill that the birds spend the night on the treated roosts.

Magazines For McGill

About 3,500 Received Regularly By Montreal University

McGill University, Montreal, is one of the largest subscribers of periodicals in the world. Statistics compiled show that the university regularly receives some 3,500 magazines. Some 2,000 of these are subscribed for in the regular way, a total of 930 are presentation subscriptions, and 500 on the exchange list with other institutions. The entire collection has been rated one of the best in the world by visiting librarians.

W. N. O. 1910

Sleeping Sickness

Medical Men As Yet Know Very Little About This Disease

Both medical men and laymen are interested in what is going on these days at the County Hospital of St. Louis, Mo. There, in an isolated ward, many persons are in a stupor from which physicians are unable to rouse them. Some patients have died with normal occupation, although they still are under medical observation.

Not very much is known about encephalitis, the form of sleeping sickness which afflicts these St. Louis patients. Not only is the germ unknown, but the means of infection and distribution has not yet been detected. The superintendent of the County Hospital thinks the present run of cases began with an outbreak of meningoencephalitis, so authorities in St. Louis poured oil on all patches of standing water and appealed to residents to remove tin cans, drain off ponds and take other precautions.

It is to be hoped this will have an effect. In the meantime laboratory specialists of the United States Public Health Service have undertaken a study of the cases, but so far the hope they may find some clue to the mystery of this unusual disease, which fortunately did not appear to be spreading very fast—Detroit Free Press.

French Bread Unlike Ours

Is Darker In Color And More Like A Spunge

The difference between the bread eaten in France and that of Canada is mentioned by Arne Henry, French Minister to Canada, as one explanation for the lack of demand for Canadian wheat in France. The hard wheat of Canada, which is exported to France, is used mostly for macaroni, spaghetti and such products, says Mr. Henry.

The ordinary bread bought in a baker's shop in France is not the white bread to which Canadians are accustomed. Instead it is a darker tint and is more like a sponge. It has a due taste, but is not quite as good as the white bread made from Canadian wheat. At least that is the opinion of some of those who have eaten both kinds.

Danger In The Kitchen

Place Where Large Percentage Of Accidents Occur

The kitchen doesn't ordinarily seem like a dangerous place—except perhaps, when a truly luxuriant cook concocting indigestible dishes is hot and doesn't want to be disturbed.

The ordinary kitchen is a dangerous place from accidents which took place in the homes of the United States and fully 34 per cent. of these.

August, the highest number of accidents, and that it is needed for the most prolific sources of home accidents. And while it is a bit difficult to see just how a safety code can be devised and enforced for the home, a little care and forethought in the midst of the daily round of activities would save a good many lives each year—Chatham News.

A great need of the soil for crop growth is that of an air supply. Everyone realizes the importance of air for animals, but that it is needed for plants is not such common knowledge.

Lesson In Natural History

Fruit Dealer In London Says-Wasps Work For Menus

Do you hate wasps? Yes, but what do you know of them? I have received my first serious lesson in natural history from a Daily Sketch correspondent.

Hyde Park is swarming with caterpillars and Arthur, the 23-year-old chat attendant, informed me that he had been waging war against them for the past 30 years. This waste of time annoys Lisa, who spends her days reclining fruit at a spot near the Marble Arch entrance.

"Serve 'em right," she snorted. "Serve everybody right who owns Hyde Park for killing all the wasps like they do." She has an idea that wasps are the natural exterminators of caterpillars.

"To think how you're treated now," she said, with a shake of her head. "I allus see to everybody. Don't be too 'ard on 'em, fer if it was for the wasps, there wouldn't be no fruit," although I own they're a bit of a nuisance when they commence to crawl.

"They don't sting unless they're provoked. Why, if it weren't for the wasps' working 'ard all May you wouldn't have a strawberry to eat a fruit 'arvest. Wasps be useful if they're let alone, and they do good work."

"I well remembers the time," she went on somewhat dreamily, "when me uncle in the country used to keep the wasps to keep down the grubs and insects, let alone the flies. Think of the hundreds of midges they can swallow at a stretch!"

"On some fruit trees and bushes the leaves have all curled back in the most curious manner. The farmers and gardeners call it 'blight' but if they wasn't so fond of killing the wasps there wouldn't be so much blight. And the farmers and market gardeners 'ave united the wasps and used insect-killers that there's been so much blight."

Delegates To League

Hon. R. J. Manion Will Head Canadian Mission At Geneva

Canada will be represented at the meeting of the assembly of the League of Nations by Hon. R. J. Manion, Minister of Railways; Hon. Philippe Roy, Canadian Minister in Paris; and Dr. A. H. H. Bell, Canadian Advisory Officer to the League. Announcement of the selection of the Canadian delegation was made by Sir George Perley, Acting Prime Minister.

Dr. Manion will head the delegation and left for Europe on Sept. 2. This will enable him to make a study of the situation before the opening of the assembly in Geneva on Sept. 25. Two substitutes were also named, Hon. G. Howard Ferguson, Canadian High Commissioner in London, who is now in Canada, and J. Deay, of the London Office.

Scotch Boys Growing Taller

The average schoolboy in Edinburgh is two inches taller and 10 per cent heavier than the boys who attended school in the 1913-14 season, while the girls are half an inch taller and eight pounds heavier. These figures are revealed in a report just issued by Dr. John Guy, medical officer of health.

EMBRACING HINDUS FOR LOVE

A dramatic moment at Chalk Farm, London, as Miss Jessie Wood-Medley, an English girl, was received into the Hindu faith. At the left is C. P. P. Kumar, son of a Hindu millionaire, when he married a year ago the ritual is Dr. Moonge, president of the Hindu Maha Sabha, who performed the right that made the girl a full-fledged Hindu.

France has one doctor to every 1,996 persons, while Canada has one to every 1,000.

England will not pay its subsidy to grand opera this season.

Forest Nursery Stations Show What Can Be Accomplished In Reforestation Of The West

The scheme under which trees are supplied by the Dominion government for prairie farm planting in Manitoba, Saskatchewan and Alberta, was first inaugurated in 1901 by the late Hon. Clifford Smith, who was at that time Minister of the Interior. At that time the general opinion was that trees could not be grown on the prairie and for that reason it was very difficult to interest farmers in this line of work. In January and February of 1901 a large number of farmers' meetings were held in the three provinces, at which the scheme was discussed. Very little enthusiasm, however, was aroused, only some 20 farmers in the three provinces expressed willingness to try out what was considered a very doubtful experiment. These first few plantings were successful and next year there was a larger demand, and 470,000 young trees were supplied to the farmers. Negotiations became intensified, encouraged by the success of the plantings in 1902. In 1903, 6,000 plantings in 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, TOWN & COUNTY Personalographs

Mrs. L. Brown of Stanley, N.B. has been the guest of Mr. and Mrs. R. R. Thorburn for the past two weeks.

Mr. and Mrs. Jas. Plaw and son David, and Mr. and Mrs. H.N. Elliott motored to Delta on Sunday and visited with Mr. and Mrs. H. Skelton (nee Lucy Hoff).

Mr. M. Moriarty was a Carbon visitor on Sunday.

Messrs. L. Outman and J.J. Connolly were Trochu visitors on Sunday.

Mr. R. F. Torrance and daughter Elaine, returned on Sunday from Atwood, Ontario, after spending a month visiting with his father who is seriously ill.

Ray Staples and family of Edmonton were visiting at the home of Mr. and Mrs. Ross Thorburn on their way back from Haifa.

Percy Edwards has installed a new furnace in the hotel and guests are assured of solid comfort for the winter months.

Mrs. John Wolf and family are back in town and Mrs. Wolf will take up her

business of sewing, washing and boarding in the hopes of making a living for her family.

W. A. Braisher was a business visitor to Calgary the first part of the week.

Lawrence Poxon, who is suffering from a leakage of the heart, has been ordered to bed for a couple of months.

Aaron Klassen motored to Calgary on Wednesday.

Shooting season opens tomorrow at noon and many local hunters plan to take in the first day's sport.

Colin McPherson returned to Carbon from the east on Tuesday. Mr. McPherson spent the summer at Glanworth, Ontario and while the East is a good place to live, he prefers the western life.

Mrs. W. Poxon was a business visitor in the City on Tuesday.

Paul Schoepke has moved his sawmill station from the old lumber yard building to the Dominion garage building across from The Chronicle office.

Snicklefritz

A low moral aim oft will hit the dollar mark.

Many persons are able to beat opportunity knocking.

The next thing on the bill of fare will be spill-atom soup.

Money may get a man into trouble, but it is usually more helpful in getting him out.

And then there was the nice little girl who went to Egypt and came back a mummy.

"Ze Americane he is ver' funny. Ze Frenchman can nev' understand him--" like ze Americane cocktail. First he put ten whiskeys to make ze drink strong, zen he put in water to make her weak, zen he drop in some sugar to make her sweet, and he put in poison to make her sore, zen he say, 'here's to you' an' he drink her herself."

Mrs. Tursion had bought a perambulator on the hire-purchase plan. Month--after month she visited the shop which sold it to her, handling over the meager instalments. Her visits were so numerous that she became well known to the assistant who served her.

At last the time arrived when Mrs. Tursion had paid in full. The assistant made her a touching farewell as he handed her the receipt. "I shall miss you, Mrs. Tursion," he said. "You've been one of our regular customers. How is the baby getting along?"

Mrs. Tursion gave a satisfied smile. "Very well, thank you," she replied, "he's getting married next week."

SECURITY AND PROTECTION

Grain growers, the length and breadth of Alberta, should keep in mind that a fair measure of protection and security in the sale, and handling of their grain can be obtained through the building up of a strong elevator system on a strictly grower-controlled, co-operative basis. Having this in mind the best course to follow is to

Let Us Do Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
